Participants provide funds in equal share, separate from the Common Fund. From 1983, there were only Cooperative Projects. Starting in 1979, Task 1 had four Planning Groups. Each Planning Group had a

- Harvesting
- Preparation
- Transportation

Growth and Production

ExCo Secretariat will be managed by a Fund Administrator, who is the same person as the ExCo Secretary. All the funding will hence be handled at one place and all the budgets (for the Tasks and the Secretariat)

In the new system, to be applied from January 1998, the work will be organised in a larger number (around 10) of smaller Tasks, each with very well-focused objectives, and led by a Task Leader.

FROM 1997 Annual Report

Improvement of Methods for Converting Biomass

Improvement of Biomass Growth and Production

Processing and Transport of Forest Biomass for

Feedstocks into Useable Energy Forms

Technology in Short Rotation Forestry for Energy

A Spectrum of Marketable Bio-based Products and

Change Effects of Biomass & Bioenergy

Socio-economic Drivers in Implementing Bioenergy

Projects

Bioenergy Systems Analysis

Sustainable International Bioenergy Trade: Commercialising Conventional & Advanced Liquid

Biofuels from Biomass

Energy from Biogas & Landfill Gas

Energy from Biogas

Energy from Landfill Gas

Energy from Municipal Solid Waste

Energy from RDF
